ALLRECIPES.CO.UK SHAKES UP MEALTIMES WITH THE NEW 'DINNER SPINNER' IPHONE APPLICATION

Allrecipes.co.uk, the UK and Ireland's largest online community of home-cooks, today announced the launch of a UK version of the popular Allrecipes Dinner Spinner iPhone/iPod Touch application; the perfect culinary companion when "What's for dinner?" panic strikes.

Fun, friendly and convenient, the Allrecipes.co.uk Dinner Spinner app offers 1500 top-rated, delicious recipes, selected based on the search behaviours, ratings and reviews of visitors to Allrecipes UK community site. The application is free and available now at the iTunes store.

Launched December 2008, the US version of Dinner Spinner from Allrecipes.com, the world's number one food site, is currently the most popular food-focused iPhone/iTouch application, boasting more than 1.3 million downloads to date. With one of 10 installs coming from Great Britain in June, Allrecipes saw a natural opportunity to develop a Dinner Spinner version exclusively for UK and Irish cooks.

Allrecipes.co.uk Dinner Spinner offers unmatched ease and convenience for fresh food ideas on the go—in the supermarket or office, to share with friends and family members. It's easy to quickly locate recipes to match any occasion or taste by selecting a main ingredient, dish type, and cooking time. Those who can't decide can simply shake their iPhone to activate the Dinner Spinner's slot machine-like search facility for surprise dish ideas. Dinner Spinner recipes come with photos, ingredient lists, step-by-step directions, nutrition advice, and reviews featuring shortcuts and variation ideas from Allrecipes.co.uk members. With everyone cooking more at home to manage the family budget while balancing multiple priorities—work, family, kids and fun—the Allrecipes.co.uk Dinner Spinner iPhone app with recipes on the go is a natural fit for busy lifestyles.
